Visual Technologies continues to grow and serve the Central New York Community with the latest multi-media presentation equipment and services.

Call **Visual Technologies** when you are in need of rental equipment or staging services for your presentation or special event. **VTC** offers the equipment and personnel to make the most impact on your audience, from an intimate group of 10 people to a crowd of 10,000. If you require a permanent AV equipment installation for a conference room or portable presentation system to take from site to site, **VTC** can design, implement, and train your staff on the proper use of your purchase.

The equipment that **Visual Technologies** has to offer ranges from LCD and interactive monitors to projectors and screens, speakers and microphones, video, and audio conference systems. Services also include installed equipment service contracts, in-court litigation services, and PowerPoint presentation creation.

New construction, building renovations, professional offices, corporations, military, religious facilities, schools (K-12 or higher education), hotels and financial institutions are some areas that equipment could be installed...presenters, teachers, contractors, doctors, lawyers, non-profits are professions that would benefit from many of the products and services that **VTC** has to offer.
