Gannon Pest Control
Jennifer Savastino ~ Chris Cole

Gannon Pest Control is a locally owned and operated pest management company serving Central New York. With over 30 years of experience in the industry, Gannon has built a reputation for reliable and effective pest control services.

Gannon Pest Control offers a comprehensive range of services to residential and commercial clients. Their expert technicians are skilled in addressing common pest issues, including crawling & flying insects, mice & rats. The company prides itself on using integrated pest management techniques, which focus on preventative rather than reactive measures.

Gannon's approach combines thorough property inspections, identification of pest entry points, and targeted treatments to ensure long-lasting results. They offer both one-time services for acute pest problems and ongoing maintenance plans to keep properties pest-free year-round.

What sets Gannon apart is their commitment to customer education and transparency. Both the office and field staff take the time to explain pest behavior, prevention methods, and treatment options to clients. The company also stays current with the latest pest control technologies to ensure that they offer their customers the best options for prevention & control.

As a fixture in the CNY community, Gannon is known for its prompt response times, courteous staff, and satisfaction guarantee. They're fully licensed and insured, adhering to all state and local regulations for pest management.

Whether dealing with a persistent insect invasion or seeking the peace of mind of preventative measures; Central New York residents and businesses trust Gannon Pest Control to provide effective, safe, and professional pest management solutions.
