***TWO DIVISIONS - ONE TEAM - DESIGNERS/BUILDERS***

- *Architects*
- *Interior Designers*
- *Support Personnel*
- *General Contractors*
- *Construction Manager*

*Our nineteen employee firm is made up of two divisions. The design division is composed of designers, interior designers, CAD drafters, and support personnel. The second division is a full-service general contracting firm with construction estimators, project managers, and field staff. This marriage of design and construction greatly benefits our clients. Our design staff knows how projects are constructed so our drawings reflect realistic design solutions and construction techniques. With our in-house construction cost estimating capability, we keep the design and budget on a parallel course.*

***Zausmer-Frisch Scruton & Aggarwal*** has provided both design/build, and design-only services to our clients.
