

ConstantCare247, LLC

Gwen Crossett, RN, BS — CEO & Founder

ConstantCare247 is an all-inclusive home care company that services private pay clients serving Onondaga County and the greater Central New York area. We help families find solutions to their loved ones' medical, social, and safety needs. Services include **companion services, personal care with HHAs and PCAs, medical case management, nursing services by LPNs or RNs, respite care, and PRIs/ placement screens**. Whatever the need — a few hours of companionship or round-the-clock nursing support — ConstantCare247 builds a plan around the client, with the client's needs always the first priority.

ConstantCare247 was founded by **Gwen Crossett, RN, BS**, who brings over **25 years** of health care experience, including more than a decade focused specifically on eldercare. Gwen started the company because of her love of nursing and her commitment to putting clients' needs and wishes first, helping families navigate a health care system that can otherwise feel overwhelming. As ConstantCare247 nears 10 years in business, we have grown to support our clients in every stage of their aging journey.

Our caregiving, nursing, and on-call staff teams work hand in hand with clients, families, and caregivers to ensure every individual's needs are met with dignity and compassion.

Our success is built on strong, long-term relationships with the families and clients we serve, grounded in trust, integrity, and demonstrated quality of care. Rest assured that our primary goal is to provide you and your loved ones with the very best.
